

Before we start any journey we need to know where we are.

RE:VITALITY
LUTHERAN REVITALIZATION

As a congregation, big or small, we desire to invite, welcome and receive guests to our fellowship and even strengthen intentional outreach into our community?

After inputting your desired destination into Google Maps, we are asked if we want to use our current location as our starting point. But if we don't know our starting point how can we discover the best path for us to follow?

The resource of Re:Vitality Congregational Self-Assessment assists us in identifying and knowing our current location as a congregation. The strength of Re:Vitality Self-Assessment is that it is not about having an outside consultant come to tell you what he thinks you but each person connected with your congregation, in the context of your community, gets to have their opinion recorded, so that the resulting report is based on what they think.

Ask for your FREE online assessment today.

This Is...

A FREE congregational self assessment (Members of your own congregation completing an online form for the congregation)

Subjective evaluation of your current ministry

This is not...

A church worker review

An outside group coming into your congregation to assess you

AFTER the assessment is complete

Visit by our Mission Executive

- Free visit from Rev. Derek Mathers, Mission Executive to assist you in understanding your self-assessment
- Assist you in your consideration of how to apply what you discover
- Suggest possible resources strengthen you on the journey toward your desired destination.

Let us help you get started on this amazing journey today...
